NVIDIA Containers For Deep Learning Frameworks

User Guide

DU-08518-001_v001 | April 2021

Table of Contents

Chapter 1. Docker Containers....1
1.1. What Is A Docker Container?....1
1.2. Why Use A Container?....2
1.3. Hello World For Containers....2
1.4. Logging Into Docker....2
1.5. Listing Docker Images....3
Chapter 2. Installing Docker And NVIDIA Container Runtime....4
2.1. Docker Best Practices....4
2.2. docker exec....5
2.3. nvcr.io....5
2.4. Building Containers....6
2.5. Using And Mounting File Systems....9
Chapter 3. Pulling A Container....11
3.1. Key Concepts....11
3.2. Accessing And Pulling From The NGC container registry....12
3.2.1. Pulling A Container From The NGC container registry Using The Docker CLI....14
3.2.2. Pulling A Container Using The NGC Web Interface....14
3.3. Verifying....15
Chapter 4. NGC Images....17
4.1. NGC Images Versions....18
Chapter 5. Running A Container....20
5.1. Enabling GPU Support For NGC Containers....20
5.2. Example: Running A Container....22
5.3. Specifying A User....23
5.4. Setting The Remove Flag....23
5.5. Setting The Interactive Flag....24
5.6. Setting The Volumes Flag....24
5.7. Setting The Mapping Ports Flag....24
5.8. Setting The Shared Memory Flag....25
5.9. Setting The Restricting Exposure Of GPUs Flag....25
5.10. Container Lifetime....26
Chapter 6. NVIDIA Deep Learning Software Stack....27
6.1. OS Layer....27
6.2. CUDA Layer....27

6.2.1. CUDA Runtime....28
6.3. Deep Learning Libraries Layer....28
6.3.2. cuDNN Layer....29
6.4. Framework Containers....30
Chapter 7. NVIDIA Deep Learning Framework Containers....31
7.1. Why Use a DL/ML Software Framework?....31
7.2. Kaldi....32
Chapter 8. Frameworks General Best Practices....38
8.1. Extending Containers....38
8.2. Datasets And Containers....38
8.3. Keras And Containerized Frameworks....39
8.3.1. Adding Keras To Containers....40
8.3.2. Creating Keras Virtual Python Environment....40
8.3.3. Using Keras Virtual Python Environment With Containerized Frameworks....42
8.3.4. Working With Containerized VNC Desktop Environment....44
Chapter 9. HPC And HPC Visualization Containers....46
Chapter 10. Customizing And Extending Containers And Frameworks....47
10.1. Customizing A Container....47
10.1.1. Benefits And Limitations To Customizing A Container....48
10.1.2. Example 1: Building A Container From Scratch....48
10.1.3. Example 2: Customizing A Container Using Dockerfile....50
10.1.4. Example 3: Customizing A Container Using docker commit....51
10.1.5. Example 4: Developing A Container Using Docker....53
10.1.5.1. Example 4.1: Package The Source Into The Container....55
10.2. Customizing aFramework....55
10.2.1. Benefits and Limitations to Customizing a Framework....56
10.2.2. Example 1: Customizing A Framework Using The Command Line....56
10.2.3. Example 2: Customizing A Framework And Rebuilding The Container....57
10.3. Optimizing Docker Containers For Size....58
10.3.1. One Line Per RUN Command....59
10.3.2. Export, Import, And Flatten....60
10.3.4. Squash While Building....61
10.3.5. Additional Options....61
Chapter 11. Scripts....64
11.1. DIGITS....64
11.2. TensorFlow....64
11.3. Keras....65
